

Annual Report 2018

Enabling better lives.

53 years
serving the
community

1,000+
meals provided
each week

86
Community
Learning tutors
volunteering 7,000+
hours of their time

Environmental
Initiative –
Boomerang Bags
group launched

1,400+
children attended
play sessions

280+
youth counselling
sessions

250+
medical transport
trips each month

Delivered the
Kindergarten
Connections
program to **10**
primary schools

12,800+
incoming phone calls

500+
**Justice of the
Peace appointments**

700+
**Community Store
customer visits**

350+
**Financial Counselling
cases**

**Delivered Parent
Engagement
programs to 8
primary schools**

Mission Statement

Christian Community Aid takes a holistic approach, providing local services that address the needs of people in the community.

Vision Statement

We engage with the community to enable better lives.

Recognition of Country

CCA acknowledges the traditional owners of the land on which we live and work as the first people of this country. We pay our respects to all Aboriginal and Torres Strait Islander communities and to their elders, past and present.

President's Report

“The wonderful staff and volunteers at CCA help everyone, regardless of which group they belong to (or what shirt they wear).”

Several years ago, a study was conducted by a UK university¹.

Manchester United football fans watched persons wearing either a United jersey, a Liverpool jersey or a plain red T-shirt, fall over and injure themselves. They helped the United shirt wearer but ignored the other two – they helped the “group member”.

The experiment was repeated but this time the Manchester United fans were encouraged to think of themselves as football fans, irrespective of club. The result was, when confronted with the victim injuring themselves, they helped the Liverpool shirt wearer as well as the United shirt wearer.

The study showed that the way we view groups – who is “us” and who is “them” – varies. The more inclusive a group is, the wider the scope for our care and concern.

It highlighted the importance of social inclusiveness in emergency interventions – who do we help and who are we prepared to help?

The wonderful staff and volunteers at CCA help everyone regardless of which group they belong to (or what shirt they wear).

CCA is inspired by the Christian values of love, care, service, inclusion and valuing all people. We have provided help to anyone “coming through the door” for over 50 years. These values inspire CCA to always be there for people in need and to be proactive in identifying other opportunities to help.

Our management team continues to focus on achieving the outcomes of our 5-year Strategic Plan. The Plan has 3 core goals:

1. To be demonstrable leaders in our carefully chosen sectors;
2. Increased professionalism in all aspects of CCA's work;

3. Growth in scale and reach, and developing a funding model to support this growth and ensure excellence and sustainability.

I would like to thank the management team for maintaining this focus whilst still providing excellent levels of service to the community.

I would also like to thank all the dedicated staff and volunteers at CCA. Their commitment, passion and professionalism are exemplary and CCA would not be the fine organisation it is without their involvement.

Thank you also to Heather Pinto for her dedication, passion and professionalism. Heather has great vision and a unique ability to see the big picture yet not miss the finest detail. She is a true leader and CCA is blessed to have her.

I would like to take this opportunity to thank my fellow members of the Board for their commitment and valuable contributions to CCA. They generously share their expertise and time ensuring that CCA meets its legal, ethical and operational requirements. Thank you also to Vahé Hamparian, our Treasurer for the diligent work you put in each month.

Finally, CCA is very appreciative of all our members and supporters. I thank you for your continued interest in and support of CCA. I hope this report gives a glimpse of the extraordinary work done by CCA each and every day.

—
Michael Lum
 President

General Manager's Report

At Christian Community Aid there is one thing that remains the same: a continual striving to do better. We are always working to improve the quality of our services and raise CCA's standards even higher to keep our vision of "Enabling Better Lives" very much alive.

Keeping true to our mission statement, CCA provides a very strong safety net for disadvantaged and vulnerable community members through direct service delivery, referrals, advocacy and information provision. No one is turned away without an appropriate response.

CCA is undertaking measures to achieve a more viable and sustainable financial footing. Our income generation efforts have increased by around 5% in the past year. In response to community needs and funder requirements, the way CCA delivers services is evolving but our core values of Respect, Strengthening Community, Integrity, Social Justice, Co-operation & Independence are still similar to when we started 53 years ago.

CCA continues to strengthen our Community Engagement which has always been a strength for us. It involves professional staff and volunteers, supported by efficient business practices. We work together to form close relationships with community members, commercial organisations, churches, universities, social clubs, other

community stakeholders and funders which are based on mutual trust and respect.

Service delivery is underpinned by family & community focus principles that are the centre of what we do.

CCA has responded to government priorities and is fully engaged with the Targeted Early Intervention (TEI) Reform. I am pleased to say that we are integrating this reform with our Family Day Care and Youth Services. CCA's partnership with Relationships Australia NSW goes from strength to strength. Triple P, Circle of Security, Tuning into Children and Parenting Engagement programs are being delivered to a wide range of primary schools.

There has been a great impact from programs which are positively and proactively tackling youth mental health, family support and domestic violence issues. These programs have resulted in Wellbeing Days run in primary and high schools, family and domestic violence workshops for community leaders and residential family camps. They have been exciting, challenging and successful steps in CCA's engagement with the TEI Reform.

At CCA our holistic services for older persons are more than just Band-Aid solutions. They are relational to the issues being faced and focus not only

on the quality of care but also address individual needs relating to the quality of life being lived. Client Directed Care (CDC) underpins our Aged and Disability Services. Programs include home delivered meals, the provision of clean linen, social outings, shopping, transport to medical appointments and counselling. They are easily accessible, non-discriminatory, affordable and delivered with respect. Language specific programs which reflect the area's demographics form a large and growing part of these services.

CCA has pursued quality in early childhood education in safe and nurturing environments whilst promoting the physical, social, emotional and intellectual development of young people.

Regulatory processes are vital to ensure optimum levels of safety and confidence in the services we deliver to the community. It is with a great deal of satisfaction that I share our compliance achievements include the following:

- 'A' rating in Food Safety;
- 'Fully Compliant' in Aged & Disability Services
- 'Accreditation' of Family Day Care

Finally, I attribute the success of CCA to the staff, volunteers & Board that work here. Their professionalism and dedication are outstanding and I appreciate all of your efforts.

To the wider community I say a heartfelt thank you for your support because without you CCA could not exist.

—

Children and Family Services

CCA Family Day Care (FDC) has continued its commitment to ensuring that all children reach their full potential. Delivering care to families in the Ryde, Parramatta, Hills and Blacktown local government areas, 75 FDC Educators are supported by the FDC team to deliver evidence-based, best practice child care. Our Educators have a minimum qualification level of a Certificate III in Children's Services and work collaboratively with families ensuring that the highest quality care is provided to the children. Educators provide a safe, family-style setting in their home environments where children learn through participating in a variety of interest-inspiring activities with peers of different ages.

In addition to providing quality care in their own homes, our Educators can take advantage of regular attendance at Play Sessions, either at our centre in Eastwood or in public parks. These Play Sessions provide opportunities for our Educational Support Officers to mentor Educators, for the Educators to meet and share experiences and for the children to enjoy different play

and learning settings.

Preparation for a National Quality Standard Assessment and Rating process has been an important part of this year's work. Conducted by the Early Childhood Education Directorate, this process requires benchmarking all aspects of our service against the seven areas of the National Quality Standards. The implementation of a new system for invoicing parents through Harmony Web software and the introduction of the new Child Care Rebate has also resulted in significant improvements in the way families pay for the quality child care they receive.

Excellence in FDC service delivery is confirmed by client satisfaction:

"I am so grateful that CCA supports its Educators. My experience with your scheme and staff has been amazing. Every single one of the ladies I've dealt with in your office is fantastic, positive and helpful. Your support has been exceptional, and I really appreciate it."

Youth Services

This year we have increased the number of counsellors and the languages that the service is provided in. We currently provide counselling in Cantonese, Korean and English. Several grants have been secured by our Youth team, which has enabled us to commence new projects, including a community garden at The Shack Youth Centre and art therapy sessions. We were also part of a Youth Week project where a group of youth developed and planned an event. Our group ran a community event to help youth access employment information. This was held at Epping Boys High School with approximately 60 young people in attendance.

2017 ended with a bang with an open night held at Our Space Youth Centre. There were games, activities and lots of food. There were also several performances including the Our Space Guitar Group and the Go Beyond Disability Group.

The school holiday programs remain popular with programs offered both in the centres and out and about. Attendance has been consistent, and enquiries are already being taken for upcoming programs.

Community Learning

Community Learning (CL) had more than 300 students enrolled this year. Several new classes have been introduced including Technology for Seniors and Ukulele for Beginners. Both classes have proven popular, with the Technology class now having a waiting list.

Community Learning is supporting Community Development through the introduction of the Boomerang Bags special project in October 2017. Boomerang Bags produce re-useable and sustainable alternatives to plastic bags. The group uses the CL venue on Mondays at West Ryde and share resources with the existing Sewing for Fun class, including the expertise of their volunteer tutors. There are eight regular weekly volunteers, with a few additional people who attend occasionally. We have collaborated with CCA's Youth Services, who help with the screen printing of the logo for the bags. Approximately 300 bags have now been made. Bags have been sold to raise funds that help sustain this initiative. They have also been given away to our Community Store clients and were used to pack Christmas hampers for CCA clients in 2017.

Chinese Community Learning (CCL) offers over 60 educational and leisure courses from Monday to Thursday each week in Eastwood and Sydney Olympic Park. The total annual enrolment this year exceeds 650 with most classes operating at full capacity. Demand for places in some classes exceeds availability.

Highlights of the year include the October Concert 2017. More than 280 people attended with over 100 performers including dancers, orchestral instrumentalists and choral groups. In November 2017, the badminton classes organised a friendly Badminton Competition and the overall winner was honoured with his name engraved on CCL's Perpetual Trophy. 2017 concluded with the Annual Open Day where students showcased their artwork and skills to the public and a heart-felt "Thank Tutors' Luncheon" was held.

Community Learning and Chinese Community Learning have been working with CCA's Aged and Disability Services (ADS) to deliver the 'Sing Your Age' project where tutors and students organise singing groups for ADS clients.

Ready for Life, Ready for Success

The Ready for Life - Ready for Success (RFL-RFS) model was initiated by the NSW Department of Family and Community Services (FACS). It is a partnership between CCA and Relationships Australia committed to a common framework. The main goal is to reshape our way of working towards a client-centred service system supporting the client needs to achieve better outcomes. RFL-RFS is a holistic model with a child-centred approach ensuring children are "Ready for Kindergarten, Ready for High school and Ready for Tertiary Education and/or Employment".

One program delivered by RFL-RFS is Kindergarten Connections which builds and increases parental confidence in engaging with their child's education and school. It is a stress-free way for families to engage in play activities with their child and to see their child's class in action. The program aims to:

- confidently engage parents within their child's class and provide opportunities for consistent contact and engagement;
- generate awareness among families as to what happens in school and encourage better engagement with their school teacher;
- role model positive interactions and responses to children in play and learning situations.

"Thank you to the RFL-RFS team. Having now had the privilege of working with the dedicated team in two settings, I can really appreciate the impact you have in our communities. The program is authentically meeting the needs of our families and providing strong foundations for our students. Looking forward to continuing the program." Principal – Michelle

The Parent Engagement program is a RFL-RFS evidence-based research program underpinned by the three key principles that reinforce effective parental engagement:

- Academic Socialisation – promoting positive engagement with learning and role-modelling the benefits such as communicating with children about expectations for education and reinforcing the enjoyment of learning;
- Parenting Role Construction – relates to a parent's perception of their own role in their child's education and their belief in their personal capacity to help their children;
- Parenting Style – promoting positive exchanges between parent and child is conducive to emotional wellbeing and therefore a crucial aspect to our approach. We address critical skills that parents can develop, such as helping their children to become resilient, managing stress and challenges.

"I have been to the Parent sessions, it is really brilliant. The content in the session was very useful to all the parents and the interaction was also fervent." Parent

The Breakfast Club is another initiative delivered by the RFL-RFS team that was tailored to assist and support International High School students with settling into Australia and engaging with the educational system.

The team runs breakfast sessions every Tuesday morning for an hour before school commences (excluding school holidays), currently supporting up to 22 young people each week.

Volunteers

For over 53 years, CCA's service to the community has depended on volunteers. There are extraordinary examples of those who quietly offer their time and expertise and have done so for a very long time.

We thank them for moving with us. Some have been with us since the early days and have seen many changes in CCA and the wider community over that time. The more recent volunteers are inspired by those who have been volunteering for many years and have embraced the changes. There is no doubt that our volunteers have helped to create the good image and the positive reputation CCA holds in the community.

We have many wonderful stories of those who are willing to go beyond their regular commitment particularly in services such as Medical Transport, Meals on Wheels, Individual Shopping and the Linen Service. There are also our volunteer tutors who are committed to their teaching each year. Last semester, our tutors alone put in over 3,600 hours in both our Community Learning and Chinese Community Learning programs.

There are many other volunteers supporting a range of services – they are a vital and valued resource underpinning our efforts to serve the community.

In collaboration with Epping Boys High School, CCA celebrated with our volunteers at the Annual Volunteers Thank You event. The school's music students provided entertainment, the Technology and Applied Science (TAS) students prepared food and waited on our volunteers, providing a sumptuous afternoon tea. Our volunteers greatly appreciated the attention and saw teenage boys in a new light. They were very impressed.

Volunteer story:

One of our administration volunteers, Karina, spoke about her sense of belonging at CCA. She has been with us for just over 2 years and has grown in confidence and ability. Karina is wheelchair bound and has cerebral palsy. Karina's progress to independence is enhanced by knowing she has responsibilities in this work place i.e. calling our aged clients to check on their wellbeing. She has a very good manner on the phone, a gift she has been able to build on. Because of this, Karina has become more confident at home. She says, "I don't know where I would be if I hadn't found CCA."

Aged and Disability Services

This was the year of the audit for our Aged & Disability team (ADS). We have completed the following certifications: the Commonwealth Quality Care Standards for aged care providers, the Disability standards (also known as third party verification) to continue providing services under the National Disability Insurance scheme (NDIS) as well as the Food Authority's food safety audit. These audits required significant preparation time and effort to gather the necessary evidence to demonstrate best practice is being maintained. All these audits were passed with flying colours with ADS services exceeding both national and state regulatory standards.

Several grants were obtained by ADS, enabling some exciting projects to be implemented. The first involves outreach – taking our services out to the Community. Two Chinese speaking ADS team members now operate a weekly information and support service from a kiosk in Eastwood Plaza. They provide information, answer questions, assist with completing forms, translate information and provide general assistance to the community. The project has proven successful and will continue for the second half of 2018.

Another grant focussed on the positive benefits singing and community participation offers to older community members at risk of social isolation. The 'Sing Your Age' grant funded transport and facilitators to support seniors in joining singing groups. ADS partnered with our Community Learning and Chinese Community Learning programs

for this project, with participants joining their singing groups. Additionally, volunteer singing tutors attend ADS lunch groups to facilitate sing-a-longs. This project will also continue for the second half of 2018.

ADS transport services are in high demand. A new service, Individual Social Support, has been introduced. The service allows ADS clients to request an ADS team member to take them one-on-one to social activities, e.g. going out for a movie, visiting a friend, non-grocery shopping. A new bus has been purchased replacing an ageing vehicle, part paid for by Federal Stronger Communities funding, to enhance ADS transport services. Through the generosity of a community member CCA received the donation of a car which is used to meet the increasing number of transport requests.

Our CALD (Culturally and Linguistically Diverse) workers specialise in long term case management of complex cases. Although this is not a service that we are funded for, there is a great need for this in the community. We work collaboratively with other organisations to support families and households facing a range of challenging circumstances in their lives.

Community Support

The demand for assistance under our Community Support program continues with increasing numbers of enquiries. Requests for food parcels and appointments for assessment and support have risen steadily this year. It is always a constant battle to keep our food cupboards filled. A big thank you to all those who donate food and other goods to the program. We have been fortunate enough to receive some grant funding for our Good Samaritan Fund. This Fund was established to enable the purchase of items for clients assessed as being in need, sometimes the circumstances are desperate. Some of the ways the Good Samaritan Fund has assisted include: buying school uniforms; paying school camp fees; orthotic shoes for an older gentleman; basic furniture for families and household goods for a woman leaving a domestic violence situation. The Fund has also enabled a young man from

refugee background to gain employment through funding a short vocational course. These are situations which fall outside the guidelines for our standard funding streams. However, the impact of this support can be huge, helping households and individuals through a time of crisis that is overwhelming them. It may seem small to many but helping someone tackle this hurdle in their life, or making a child feel included, might be the action that makes all the difference to their longer-term life outcomes.

Our Community Store continues to provide a wide product range and sourcing requested items has been a key goal. More than 100 households are now registered as clients. We are also in the midst of completing a research project evaluating the service and the resulting outcomes for clients.

No Interest Loans Scheme (NILS)

The provision of NILS has been on hold for some time due to a restructuring of the scheme by the external provider. We are in the process of restarting the popular program in the coming months. Under the new structure CCA's role will be that of a client support provider.

CCA will support community members to prepare and lodge their applications whilst all subsequent processing and loan administration will be the responsibility of an external provider.

Financial Counselling

For Financial Counselling, this year was notable for the success achieved in getting some very significant debts written off for clients in difficult circumstances.

Here's an example of a success story that shows how the service truly makes a difference in our clients' lives.

A lady of 60, who had been living on compensation resulting from a work injury, was couch surfing. She was depressed, suffering from a slow growing cancer and walking with the aid of a stick.

She had applied for a Disability Support Pension, which took four months to be assessed. During this time the client had no income (she should have at least been receiving Newstart Allowance whilst the assessment took place).

The client had \$55,000 in debts. Our Financial Counsellor applied for a moratorium on the repayments, fees and interest until the client had explored what options her superannuation and the attached insurance offered.

The Banks were asking for minimal repayments with either full or reduced interest applying during this time.

Our Financial Counsellor thought this was unfair to the client who had nothing to offer in the short term. The newly appointed Customer Advocate at Westpac was approached with all supporting documents. Resulting from the persistent efforts and advocacy undertaken the Bank waived the entire debt.

Encouraged by this result our Financial Counsellor undertook further advocacy with the other creditor institutions involved. They also agreed to waive their debts.

The client was elated. This excellent outcome has given her some breathing space and she is now able to concentrate on her housing and health needs.

Reception / Administration Support

CCA had a year of significant changes with program expansions and internal restructuring. This has required intensive effort from the Reception/ Administration staff and volunteers to support the major infrastructure and process changes needed. Relocating staff and services has involved significant logistical planning and coordination to ensure minimal disruption to service delivery.

We implemented new Human Resources and Payroll software that replaced the very old manual system. This has resulted in an average 100 fewer pieces of paper being printed each fortnight! A newly implemented Petty Cash system has also reduced both the laborious manual processing previously required and also the amount of Petty Cash needed to be kept.

Reception provides the first point of contact for the community with CCA. Last year the staff, well supported by our magnificent volunteers, answered over 12,800 incoming calls. Some calls are straightforward and quickly dealt with whilst others require considerable skill to assist. Callers can be very anxious, emotional or sometimes even angry as they seek support with the complications in their lives. Reception aims to provide a professional service underpinned by a compassionate, understanding approach to all their interactions.

Administration Support consists of Accounts, Human Resources, Marketing, Relationships Management and Information Technology team members. This administrative infrastructure is the responsibility of six staff, only two of whom are full time. Both the Reception and Administration Support teams take pride in the role they play in providing the framework that supports CCA's work in our community.

Financial Overview 2017 - 2018

Total income \$2,936,345

INCOME	\$	%
Government Grants	1,218,480	41.5
Parent Levy	751,871	25.6

Our Values

1. Respect

We acknowledge and honor the fundamental value and dignity of all individuals. We pledge ourselves to creating and maintaining a society that respects diverse traditions, heritages, and experiences.

2. Strengthening Community

CCA facilitates individuals and communities to support and sustain each other.

3. Integrity

Integrity underpins CCA's service provision. We act honestly and ethically. We are trustworthy and accountable in all interactions. We are custodians of resources for the benefit of the community.

4. Social Justice

CCA is inspired by Christian values of love, care, service, inclusion and valuing the individual. Our work is underpinned by a commitment to advancing the well-being of individuals, communities and our society as a whole. Everyone has a right to economic, political and social opportunities.

5. Cooperation

CCA practices collaboration and participation.

6. Independence

CCA is an independent organisation committed to being open, transparent and autonomous.

CCA Bequests

The gift that lives on

Back in 1965, a single act of generosity started the CCA story.

A bequest of £1,300 was given to Eastwood Methodist Church by a local community member in their Will. This was organised by Ian Hunt from Hunt & Hunt Lawyers. Their legacy has served the community well for over 50 years.

CCA has reached a crossroads and reaches out to the community once more. Please consider the difference you could make with a bequest to CCA.

If you don't have a trusted solicitor, please consider Hunt & Hunt North Ryde, custodians of tens of thousands of local Wills and proud supporters of CCA from the very beginning.

Contact Hunt & Hunt Lawyers on 02 9804 5700 or talk to CCA directly on 02 9858 3222.
